TRACK EVENT RESULTS

Although we now have electronic timing, there are still a few limitations. The first is that it doesn't start without a gun, and the little kids don't like the gun. So, when results are compiled, hand times have .24 added to them before being considered in the order. Times

which are hand-timed are still indicated by an "h" following the tenth of a second. The second limitation affects events at the end of the meet, where light is not sufficient to get a good picture. Those events are also still hand-timed.
